£59.99 4.3★

1. **Osprey Men's Osp M - Origin Shorty Wetsuit, Blue, 3XL UK — £39.99, 4.4★** While this shorty wetsuit sacrifices some coverage for added mobility, it's a fantastic option for warm summer days on the water. The 3mm neoprene offers decent insulation for paddling in the UK's milder coastal waters. If you're looking for something light and affordable for short sessions, this shorty might be your best bet. However, if you plan to paddle in cooler waters or for extended periods, the lack of full-length coverage may leave you feeling chilly.

2. **Osprey Men's Osp Lng 5mm - Origin Blk Full Length Wetsuit 5 mm, Black, XL UK — £84.99, 4.2★** This full-length wetsuit offers extra insulation with its 5mm thickness, making it ideal for the cooler months or when venturing further into the colder waters of Scotland or northern England. The downside is the price and thickness; it may be too warm for summer paddling. If you're serious about staying warm in frigid conditions, this is a solid investment.

3. **Osprey Men's Origin 3mm Full Length Wetsuit, Blue, M Tall UK — £59.99, 4.3★** If you're looking for a similar style and function, this blue variant of the original is a great match. Same materials and thickness, but it's designed for taller individuals who need a little extra length. If you fit this description, you can enjoy the same great performance while ensuring a proper fit.

4. **Osprey Women's Osp L - Origin Shorty Wetsuit, Black, M UK — £39.99, 4.6★** For those who prefer a shorty design but are looking for a women's specific fit, this option is a winner. At a lower price point, it offers flexibility and comfort for warmer days, making it perfect for paddling along the south coast or a quick surf session. However, for male paddlers or those needing more insulation, this will not be the right fit.

5. **Mojimdo Electric SUP Pump 20PSI with Light — £64.99, 4.5★** While not a wetsuit, every paddler needs a reliable pump. This electric SUP pump makes inflating your paddleboard a breeze,

saving you time and energy before hitting the water. If you're looking for convenience and efficiency, this is a great add-on to your gear list. It won't replace a wetsuit, but it can enhance your overall experience on the water!

In summary, whether you need an alternative for budget reasons, fit, or specific water conditions, there’s something here for everyone. Each option has its strengths and weaknesses, so consider what will best suit your paddling style and frequency.

Still Buy the Original If...

If you're set on the Osprey Men's Origin 3mm Full Length Wetsuit for its proven quality and fit, it’s an excellent choice for versatile use in UK waters, especially from spring to early autumn.
